

Aquatic Environmental SERVICES, INC.

August 23, 2010

To: Lake Residents and Management
From: Mike Rosa – Fisheries Biologist/Lake Management Consultant
Subject: Lake Service Update 8-6-10

We were out to service the lakes at Rivermoore Park on 8-6-10:

Upper:

- Collected and removed 1/4 bag of trash.
- Treated light filamentous algae, light parrot feather and light bushy pondweed. No other aquatic vegetation or algae problems were seen.
- Lake was slightly above full pool. Water appeared to be draining fine.
- Water was clear.

Lower:

- Collected and removed 1 1/2 bags of trash.
- Treated light filamentous algae, light parrot feather, light pondweed and light bushy pondweed. No other aquatic vegetation or algae problems were seen.
- Lake was near full pool.
- Water was slightly turbid.

Thanks,

Mike Rosa
